

MK II Assembly cell

The high-speed solution for 2-part assemblies

For the smallest parts

- Watchmaking industry
- Electronics industry
- Medical engineering and more

Universal

- 2 x HDM rotary lifting modules for pick-and-place movements
- Joint, press, caulk, weld, dose, assemble....
- Wide range of grippers
- Vacuum grippers, micro-pincers, turning modules.....

Advantages

- For 2-part assemblies
- Shortest cycle times (min. 2 secs.)
- Image processing for orientation and inspection
- User-friendly touchscreen
- Careful handling for delicate parts
- Conveyor belts enable multiple automatic assembly machines to be linked to form production lines
